

## Health Information for International Student Admission

### Immunizations (Vaccinations)

- Students who are not completely immunized upon arrival to the U. S. will need to receive the appropriate vaccinations **immediately** to prevent exclusion from school. This may be necessary because some vaccinations are not available in home countries. Otherwise, student should arrive in the U.S. completely immunized.
- **Documentation of all immunizations received after the initial enrollment forms and application have been processed, must be submitted to the school nurse prior to the first day of school.**
- Vaccinations are offered for a nominal fee at clinics for students living in Onondaga, Oswego and Madison County. Please see that the required immunizations have been received before the first day of school. (clinic details subject to change)
